

3.5~8mm Vari-Focal Lens

H/W Version: 1

CAS-1000A, a CS-mount vari-focal lens, is a great accessory for any system installer using several box-type cameras. CAS-1000A has a f/1.2 auto-iris that adjusts automatically to bring flexible light control to box-type cameras, rendering the highest-quality images available. This is useful for deployments that use the same model of box-type camera but in varying lighting environments, like parking garages, warehouse loading docks, street monitoring, etc.

CAS-1000A

1. 4-pin Auto-Iris Connector
2. Monitor Distance Adjustment
3. Focal Length Adjustment

Works Well With

FCS-1070
Day/Night Network Camera

FCS-1091
Day/Night PoE IP Network Camera

FCS-1081
