

3.5~8mm Vari-Focal Lens

CAS-1200

H/W Version: 1

CAS-1200, a CS-mount vari-focal lens, is a great accessory for any system installer using several box-type cameras. CAS-1200 has a F/1.4 auto-iris that adjusts automatically to bring flexible light control to box-type cameras, rendering the highest-quality images available. This is useful for deployments using the same camera installed in several different lighting environments like parking garages, warehouse loading docks, street monitoring, etc.

1. 4-pin Auto-iris Connector
2. Monitor Distance Adjustment
3. Focal Length Adjustment

Works Well With

FCS-1070
Day/Night Network Camera
