

IR Illuminator

Ideal for low-light conditions

The CAS-3015 is an IR LED Illuminator that improves camera viewing distance in low-light conditions. Whether indoor or outdoor, this is a great accessory to create strong surveillance solutions in diverse environments.

Great range, great quality

With a range of up to 15 meters (49 feet), you're able to improve a camera's performance by providing additional light. This increases the total surface area covered by the lens. The CAS-3015 has a built-in sensor that automatically turns on and off according to the amount of light that is received.

Works well with any LevelOne surveillance camera

This product works well with any LevelOne indoor/outdoor or day/night camera that can receive infrared light. It is constructed with an aluminum casing and sunshield that is IP66 rated for tough surveillance deployments.

Key Features

- AlGaInP LED(Piranha) provides excellent performance in the dark
- Long life of LED up to 20,000 hours
- Special metal board enhances lighting and dissipates heat
- Photo sensor delay control to avoid IR turning on/off repeatedly
- IP-66 rated weatherproof protection of the housing for indoor and outdoor use.

Dimensions

Technical Specification

- **IR Distance**
15M(Based on object of view reflected IR lig
- **IR LED**
6 pcs
- **IR View Angle**
80°,beam spread:20~30° per LED
- **IR Wavelength**
850nm
- **IR Status**
Under 10 lux by photo sensor auto control
- **LED Life**
More then 20,000 hours
- **Protection Class**
IP-66 rated
- **Power Supply**
12V/1.5A
- **Power Consumption**
IR on:180mA
- **Construction**
Aluminum with sunshield weatherproof
- **Temperature**
Operating: -20°C ~90°C
Storage: -30°C ~90°C (±5°C)
- **Weight**
0.4kg
