

2-port USB/ MFP Server

LevelOne's FPS-3003 is a 2-port USB/ MFP server well designed to provide easy network accessibility for office environment or SOHO network usage. This device converts user printers, HP MFPs, or USB storage devices with USB interfaces to share resources on the network, easily letting you scan, print, and import/export data storage.

The FPS-3003 has 2 USB host ports. You can connect two general printers or HP MFP to share printer resources, HP MFP to share scanner functions, and also USB hard disk or flash drives to share stored files. With the Web-based management interface, system configuration and maintenance is not a problem for FPS-3003. By using a general browser, the menu will walk you through the whole configuration procedure. The built-in FTP server allows you to access files over the Internet, making it easier to store and receive data. You can push the "INIT button" to print a configuration report to check the connection, perform a factory default of your MFP server, and upgrade the newest firmware.

In order to simplify your USB devices management, FPS-3003 is the device to maximize your productivity and investment by sharing information through reliable networking.

FPS-3003

Shares 2 USB devices on the network

Shares printer function for general USB printer and HP MFP

Shares scanner function of HP MFP

Supports general USB storages including USB hard disk, flash drive and card reader

Supports SMB and FTP file server

Supports SNMP v1/v2c/v3 management protocol

Supports DHCP

Supports easy setup through Web Browser

Provides Windows tool on Windows 98SE/ME/ 2000/2003/ XP/Vista

MFPs

HP PSC
all-in-one

700 series, 900 series, 1100 series, 1200 series, 1315, 1350, 2100

General USB Printer

Brother, Cannon, Epson, HP, IBM, Kyocera, Lexmark, Minolta, NEC, Oce, OKI, Ricoh, Sharp, TEC, Star, Toshiba, Zebra, Xerox.

USB Storage/ Memory cards

Supports most USB hard disk, USB flash drive and USB card reader

Processor

ARM 9-based RISC microprocessor, operating
at 166MHz

Flash Memory

1 Mbytes

RAM

8 Mbytes RAM

Ports

1 x 10/100 Mbps RJ-45 Ethernet port
2 x USB 1.1 Full-speed host ports

Print Server Supported Systems

Microsoft Windows 98SE/ ME/ 2000/ XP and
2003,

File Server Supported Systems

Microsoft Windows 98SE/ ME/ 2000/ XP and
2003,
Supports Unicode, CodePage

Scan Server Supported Systems

Microsoft Windows 98SE/ ME/ 2000/ XP and
2003

Printer Server Protocols

TCP/IP: LPR, Raw TCP, NetBIOS over
TCP/IP (SMB), IPP

File Server Protocols

SMB: NetBIOS over TCP/IP
FTP

Scan Server Protocols

SANE Server

Management

Web pages for configuration, monitoring and
firmware
upgrading
Windows utility for installation, configuration
and monitoring

Firmware Upgrade

Internal Web pages
Windows Tool
