

Printer Server with Multi-Port

Multi-Port Print Server -- LevelOne FPS-9023 is a desktop-sized Ethernet print server which is designed for office environment. With the built-in two USB and one Parallel printer server ports, FPS-9023 can share printer resources to network users. This unit is equipped with a 10/100Mbps auto-sensing Ethernet port featuring either 10Mbps or 100Mbps network connections.

Supports Peer-to-Peer and Server-Based Printing --Our LevelOne FPS-9023 supports both Peer-to-Peer and Server-based printing. Peer-to-Peer printing, which allows LAN clients connect directly with the printer server to execute printing functions; and Server-based printing, which allows other customers send print material first to a server which then connect with the printer server to execute printing jobs.

Supports Complete Printing Methods and Major OS-- The FPS-9023 printer server provides LPR, IPP, SMB/TCP, Raw Printing and Unix Logical Printer printing methods. Simply choose the best method according to your environment. This unit is compatible with all major operating systems including Windows™ 98SE/ME/NT/2000/XP, NetWare (3.x above), MAC OS and Unix/Linux environments to provide cross-platform accessibility.

Easy Installation and Configuration-- With its friendly web-based management interface, FPS-9023 is ready for users easily to configure and maintain this device through a general web browser. Clients can immediately utilize any features of this product simply by attaching the cables and turning on the power. The small-sized design will save limited space and thus can be located anywhere on the network.

Fault-Tolerant Firmware Upgrades – Users need not worry about errors occurring in the middle of an upgrade thus preventing the printer server from operating. This unit's fault-tolerant upgrade function allows for re-upgrades should problems occur during the initial upgrade.

With its standard features, the FPS-9023 offers the most exacting network printing solution for any environment from SOHO office to Enterprise thus increasing the productivity and saving costs.

Key Features

- Two USB and one Parallel printer ports that can share printer resources to network users
- Shares printer to all LAN users
- Supports Peer-to-Peer printing (TCP/IP/IPX/NetBEUI)
- Supports Server-based printing (Novell/Windows)
- Easy to install and setup with Web-based interface
- Supports Fault-tolerant upgrade capability
- Supports Network Protocols: TCP/IP, IPX/SPX, NetBEUI and AppleTalk
- Supports Printing Protocols: LPR, IPP, SMB/TCP, Raw Printing and Unix Logical printing
- Compatible with major Operating System: Windows™ 98SE/ME/2000/XP, Netware (3.x above), Unix/Linux

Technical Specification

Networking

- **Standards Compliance**
IEEE 802.3 10BaseT Ethernet
IEEE 802.3u 100Base-TX Fast Ethernet
- **Ports**
1 x RJ-45 10/100 Mbps port

Hardware

- **CPU**
RISC CPU
- **Flash**
2MB NOR Flash
- **RAM**
16MB SDRAM
- **Printer Port**
2 x USB 2.0 Type A Ports
1 x DB-25 Parallel Port

Print Server Specification

- **Supports Network Protocols**
TCP/IP
IPX/SPX
NetBEUI
Apple Talk
- **Supports Printing Protocols**
LPR
IPPSMB/TCP
Raw printing
Unix Logical Printing
- **Compatible Operating System**
Windows™ 98SE/ME/2000/XP
NetWare (2.x Above)
MAC OS
Unix/ Linux

Management

- **Interface**
Web-based management Interface
Windows Configuration Utility
- **Upgrade**
Fault-Tolerant Upgrade capability

Physical Spec

- **LEDs**
System power and status indicator
System activity and Network link indicator
- **Power**
12 VDC, 1A Linear Power Adapter
- **Temperature**
Operating: 0-55°C
- **Humidity**
Operating: 10-90% (RH)
- **Dimension**
30mm(H) x 187mm(W) x 100mm(D)
- **EMI and Safety**
FCC, CE
