

WPG-1000 Upgrade Procedure

To Do	Screen Expected to see
<p>1. Open your web browser and link to http://WPG-1000_ip_address/upgrade/</p> <p>Key in password (default:654321), press [Enter]</p> <p><i>Pls replace "WPG-1000_ip_address" with the ip address displayed on the WPG-1000 main menu screen. e.g. if it is "192.168.100.123", you should use "http://192.168.100.123/upgrade/".</i></p>	 <p>The screen displays the title "Administration Password" in blue. Below it, the text reads: "Before the firmware upgrade, please enter the administration password." There is a text input field for the password and an "Enter" button below it.</p>
<p>2. Press [瀏覽...] to select files you are going to upload, press [Upload]</p> <p><i>If too many files are modified between old release and the latest release, you have to upload each patch files separately. If two patch files are needed to upgrade this version, you have to upload file name end with 'patch' first and the one with 'patch-player' later. If three or more patch files are needed, please sequentially upload file name end with 'patch-001', 'patch-002'... and at last the one end with 'patch-player'.</i></p> <p><i>Patch files' name looks like xxx-xxxx-patch and, xxx-xxxx-patch-player. xxx-xxxx is the major-minor version number for WPG-1000's firmware.</i></p>	 <p>The screen displays the title "Upload File" in blue. Below it, the text reads: "Check password ok. Select the upgrade file and upload it." There is a "File Path" text input field followed by a "瀏覽..." button. Below that is an "Upload" button. At the bottom, a warning message states: "Warning: The upload slide files in memory would be lost. Upgrading firmware may take a few minutes, please don't turn off the power or press the reset button."</p>
<p>3. After the file upload successfully, press [Upgrade] to actually apply changes to the system.</p>	 <p>The screen displays the title "Upgrade System" in blue. Below it, the text reads: "Upload file success. Are you sure want to upgrade system?" There are two buttons: "Upgrade" and "Cancel". Below the buttons, the text reads: "Yes, upgrade system now." and "No, exit the process."</p>
<p>4. Applying change to the system... please wait for system reboot!!</p> <p>Do NOT turn off your system until system reboot.</p>	 <p>The screen displays the title "Upgrade Complete" in blue. Below it, the text reads: "Upgrade complete. System will reboot in 10 seconds." There is a blue link "Upgrade again." and an "Exit" button at the bottom.</p>
<p>5. Make sure you wait until the system FULLY reboot, which means you can see the main page of WPG-1000 console correctly.</p>	 <p>The screenshot shows the main page of the Projector Server WPG-1000 console. It has a dark blue background with white text. At the top, it says "Projector Server WPG-1000". Below that, it displays system information: "Host Name: 00-02-00-10-1C-14 IP: 192.168.100.208", "Memory Status: Available 3702K, Used 9%", "ESSID: DOC WEP: Off". There are three large buttons: "Monitor Status", "Home Menu", and "System Status".</p>
<p>6. Repeat step 1-5 to Upload and Upgrade another patch file.</p>	
<p>7. After the system has been upgraded, please check the lower-right corner of the System Setup page on your WPG-1000 console to see if the version number is identical to the number in patch files' name you just applied.</p>	 <p>The screenshot shows the System Setup page of the Projector Server WPG-1000 console. It has a dark blue background with white text. At the top, it says "Projector Server WPG-1000". Below that, it displays system information: "Dynamic IP", "IP: 192.168.100.241", "ESSID: DOC", "Mask: 255.255.255.0", "Channel: 1", "Gateway: 192.168.100.254", "WEP: On Off", "DNS: 192.168.100.2", "Private DHCP Service: On Off". There is an "OK" button at the bottom right.</p>
