# 4-Port DVI KVM Switch for PS/2, w/ Audio

KVM-0406

H/W Version: 1

LevelOne's KVM-0406 is DVI KVM switch designed for sharing an advanced DVI monitor/flat panel display between several DVI-enabled computers. The KVM-0406 can control 4 workstations using a single PS/2 keyboard, mouse and monitor. With the built-in KVM cable kit, no additional cables are needed making installation on your network simple and fast.

KVM-0406 is a power-free switch box specifically designed for SOHO computer users to control multiple computers. LevelOne DVI KVM Switch supports a wide range of PC hardware and software platforms, which helps save money, time, space and power.

LevelOne DVI KVM Switch with audio is loaded with features such as hot-key switching, push-buttons on the front panel, audio switching and auto-scan control. It has complete keyboard and mouse emulation for simultaneous boot-up of your PCs.
