Hard Disk	80 GB or above	
OS	MS Windows 2000 / XP	

Physical Description

Install the FCS-8004 to your PC

Step1: Insert the card onto an empty PCI slot. Connect the Audio/Video cables to the connectors in the same color.

Step 2: Turn on your PC and start Windows.

Connect the Audio/Video Cable

There are two audio and four video input connectors on the **Audio/Video Cable**.

Connect the black cable to the black connector.

The audio input connectors of the black cable are with white wires and marks of "Aud" on them; the video input connectors are with black wires and the marks of "Vid".

Install the driver of FCS-8004

Insert the included CD into CD-ROM. The setup page should load automatically. If it does not, please select your CD-ROM drive manually to run **autorun.exe**.

Click"Install Software"

Click"Capture Card's driver"

Click "Start" to install the driver

Leve	lOne Drivers Setup Wizard	×
	Press "START" to install LevelOne Drivers.	
	Start Cancel	

Click "OK" to complete the driver installation.

1845 have installed Lawslows Deiters and a falle of 1865 OK/07	
We have installed LevelOne Drivers successfully on Win2K/XP.	
OK	

After driver being installed, please restart your PC.

Check DirectX version

Run **dxdiag.exe** from start menu '**Start-> Run**' to check your DirectX version. If the installed version is less than 9.0, install DirectX 9.0 from the CD-ROM **directx9**/ directory.

Install IP CamSecure

Click"Install Software"

Click"IP CamSecure"

Custom Setup Type:

You may install the system to the directory of your preference and choose which feature(s) you want to install to the PC.

Hint: You may, for instance, install only Playback and/or LiveView on the PC at home or other remote site from which you do not install the camera but are going to watch them remotely.
